Technical Data Sheet
PREZYM Roll-On
A80-021

Description:

Pre-spotting agent for laundry with a triple action. For a wide range of stains.
Ideal on protein, grease, grass stains etc.

- Active against all kind of stains such as: coffee, blood, grass, earth, oil food stains etc.
- Triple action spotting agent
- Highly concentrated and highly degreasing surfactants
- Quick and easy to use
- Ideal for collars and cuffs
- It doesn't leave halos and it is neutral on colours
- Ideal for every kind of stain (avoid long contacts with silk and wool due to the protein enzymes)
- Multi Enzyme complex for the maximum wide range action: protease, amylase, lipase, cellulase.

How To Use:

Use Hygienfresh Prezym pure on dirty parts of the garment before wash. We recommend to leave the product act for ten minutes and then wash. Ideal on collars and cuffs and on very dirty parts.
Warning: test the product on a hidden part before applying it
