

Technical Data Sheet

Soft & Caps

A45-021

Description:

Softener for the WET CLEANING system with anti wool felting effect and innovative and persistent microcapsules perfume

- Concentrated softener for an incomparable softness
- Anti wool felting system: to protect and nourish wool fibres
- Silk proteins: to treat and preserve wool fibres and to avoid pilling on cotton
- Microcaps perfume: innovative micro-encapsulated perfume with long lasting effect. It resists to the drying and garments remain scented after months

With lanolin

How To Use:

Hygienfresh® Soft & Caps has to be used in the last rinse, with a limited water level. Its formula prevents wool felting and, thanks to particular additives, it gives a long lasting perfume.
